

Please continue to use this weblink to WhiteRose Maths.

This week, they're recapping fractions and counting in tenths.

<https://whiterosemaths.com/homelearning/year-3/>

The screenshot shows a web browser displaying the WhiteRose Maths Home Learning Year 3 page. The page has a dark blue header with navigation links: Resources, Professional Development, Home Learning (active), Who We Are, and News. Below the header is a search bar and a 'Premium Resources Centre' button. The main content area is titled 'Home Learning - Year 3' and features a 'Summer Term - Week 5 (w/c 18th May)' section. This section contains two lessons: 'Lesson 1 - Unit and non-unit fractions' and 'Lesson 2 - Making the whole'. Lesson 1 includes a diagram of a triangle and three circles, with text explaining that 3/4 of the shapes are circles and 3/4 is a non-unit fraction. Lesson 2 includes a diagram of a packet of biscuits divided into four equal parts, with text explaining that Teddy has a packet of biscuits and he divides them into four equal parts. Both lessons have a 'Looking for the worksheets?' section with a link to contact the school or check for a subscription. The page also has a sidebar on the right with a 'Home Learning' menu listing various terms and years. The browser's address bar shows the URL 'whiterosemaths.com/homelearning/year-3/'. The Windows taskbar at the bottom shows several open PDF files and the system clock indicating 14:43 on 17/05/2020.

If you're not familiar with this, there is a lesson for each day and a Friday challenge!
