

## Literacy session 5

To the universe and back!

Non-fiction challenge

Can you research space and space rockets?

- What different types of space vehicles are there?
- What was the first rocket to go into space?
- Who landed on the moon first? What was the name of the first spaceship to land on the moon? Who stepped on the moon first? What did the astronaut say?
- Why is the story of Apollo 13 so famous?
- What can you find out about the different planets?
- What was the last spacecraft to go into space?

Can you create a fact file about space?

It can be presented in different ways and you can create your own space models.
