GRID STEP. You can print out the base construction lines and start drawing on tracing paper or you can draw the grid layout yourself using the following steps... [Show more](#)

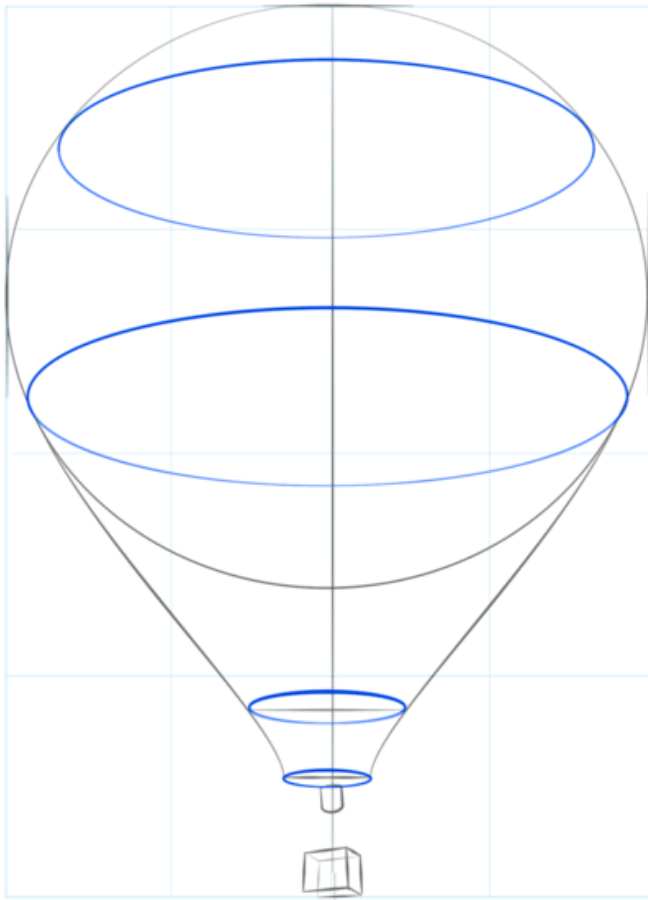

SUPERCOLORING

STEP 1. Mark off the width and height of the picture. Outline the shape for a balloon and draw a large oval.

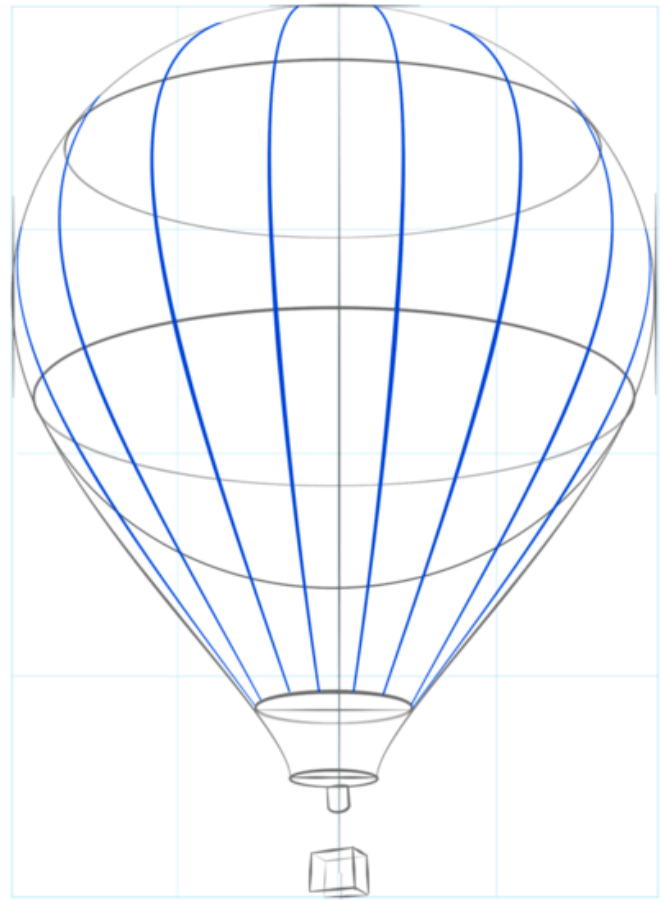

STEP 2. Outline the general shape of the balloon.

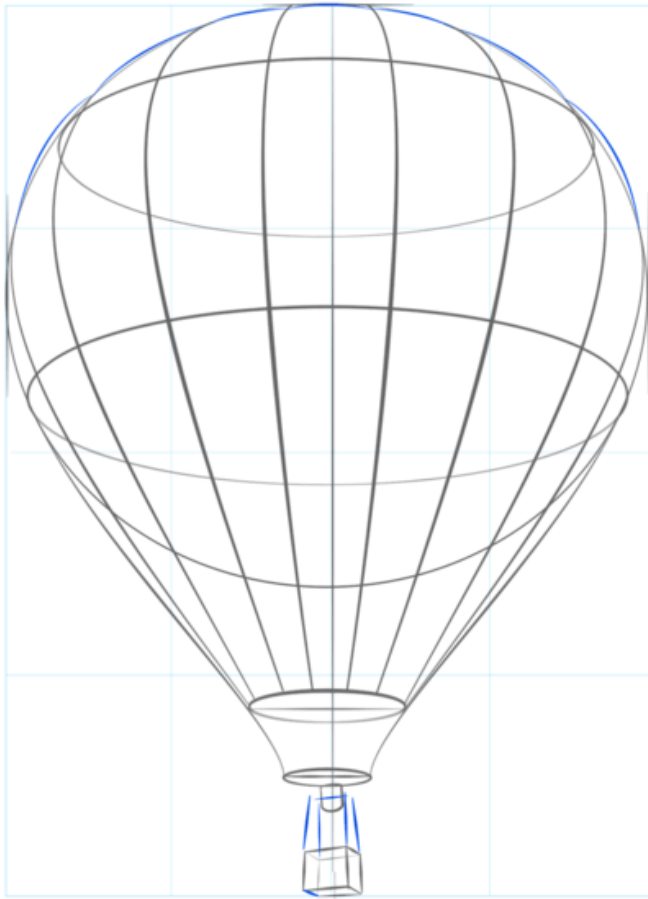

STEP 4. With the ovals, mark the bottom of the balloon and attaching points to ropes.

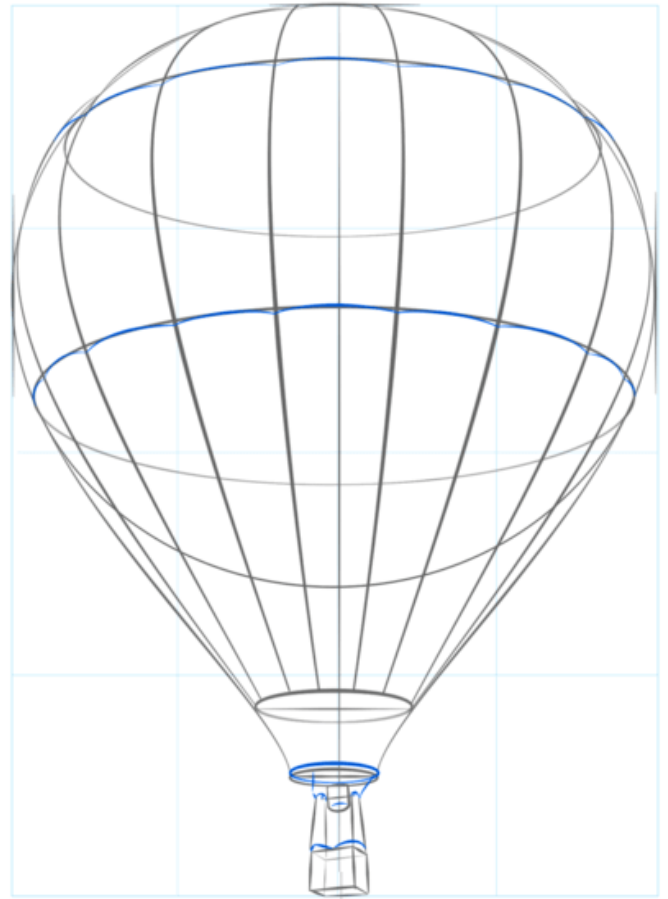

STEP 3. Outline the shapes of the parts which the balloon consist of.

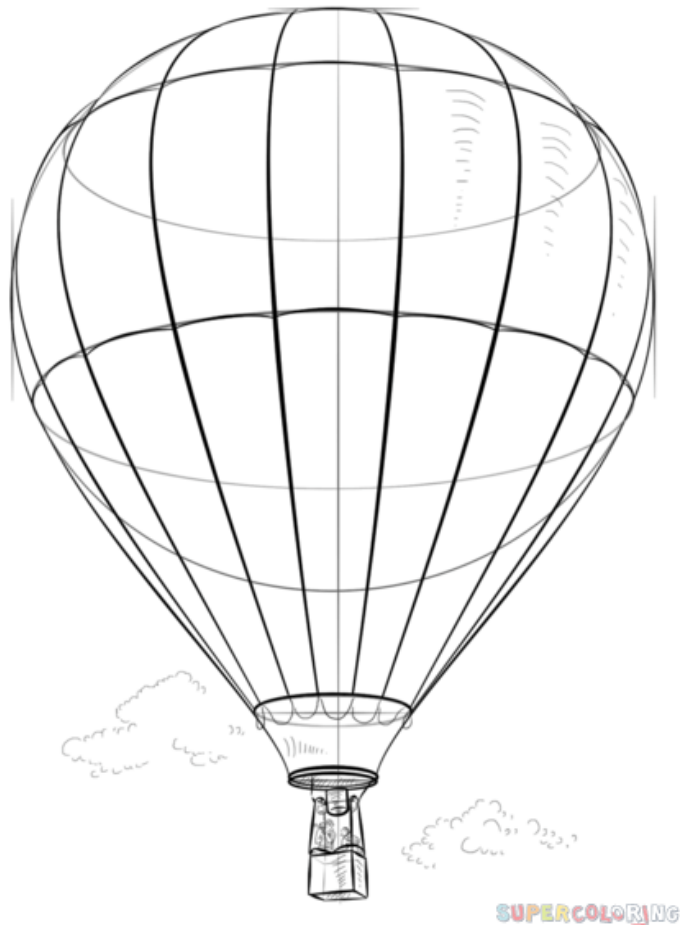

STEP 5. Show a vertical division with the help of smooth lines, retaining the balloon's shape.

STEP 6. Draw the shape of the balloon and add ropes that carry a wicker basket.

STEP 7. Work on the whole shape and figure, adding more details.

SUPERCOLORING

STEP 8. Contour, trying to vary the thickness and blackness of the line. Add some extra details and the ground underneath the balloon. Erase all guidelines.
