

Year 3,

It has been a long time since we were all together in person but we hope you are enjoying chatting with your class teachers, when they are in school. I know that it has brought joy to our days to hear you talk about what you've been up to!

After a chat with some children this week, I will be uploading extra information to the Maths section of our website.

Below are the websites you will need to access learning and also some extra websites to support learning!

Again, I'd like to say how proud we are of the children and everything that they are achieving at home!

Best wishes,

Miss Gittins

<https://whiterosemaths.com/homelearning/year-3/>

<https://www.bbc.co.uk/bitesize/tags/zmyxxyc/year-3-and-p4-lessons> - Bitesize are doing random daily lessons that you can access online. These are really quite fun!

<https://www.bbc.co.uk/bitesize/subjects/z826n39> - Another Bitesize page but you have lots of different options to explore.

<https://www.topmarks.co.uk/Search.aspx?Subject=16> – Topmarks is a website I LOVE! It has lots of different games to support learning at all levels (it even shows the age range the games are appropriate for).

I am also uploading our school calculations policy. This policy will show you every method we use in class to solve different problems.
