

Tsunami

Materials

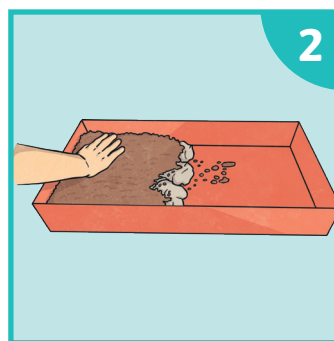

- Large plastic box (at least 40cm long, eg. an under bed storage box)
- Newspaper
- Mud
- Model houses
- Water
- Block of wood

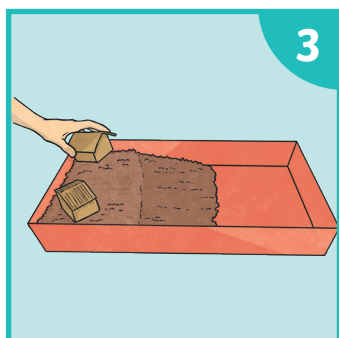

Instructions

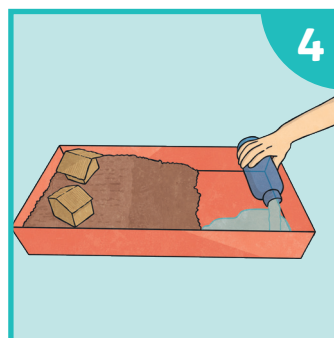

1 Place crumpled newspaper into half of a long container.

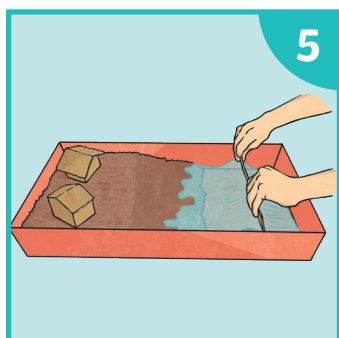

2 Place mud onto the newspaper and compress it to form slope.

3 Place cardboard houses onto the mud.

4 Pour water into the end of the container.

5 Thrust a piece of cardboard through the water.
